SUMMARY

Aspiring Technical Engineer with strong logical reasoning, analytical skills, and hands-on programming experience in Python, SQL, and C. Skilled in automation, debugging, data analysis, and building end-to-end projects. Quick learner with strong problem-solving skills.

EDUCATION

RAJEEV INSTITUTE OF TECHNOLOGY Hassan, KA
Bachelor of Engineering in Computer Science Jan 2023- May 2025
Cumulative GPA: 8.0/10

GOVT POLYTECHNIC BELUR Hassan, KA
Aggregate:72.0% Jun 2018 – Dec 2021

WORK EXPERIENCE

ROOMAN TECHNOLOGIES PVT LTD – (Intern) Hassan, KA

- Worked on **Infrastructure Management for Microservices using Ansible**, focusing on automation, scalability, and reliability of cloud-native applications.
- Automated provisioning, deployment, and configuration workflows for microservices using **Ansible, Docker, and Kubernetes**, reducing manual effort and ensuring consistent, repeatable environments.

UNIVERSITY PROJRCTS

Machine Learning Techniques for Lung Disease Classification **May 2025**

- Built a CNN model to classify X-ray/CT images into Normal, Viral Pneumonia, COVID-19, and Lung Cancer.
- Applied Seeded Region Growing for lung segmentation to improve accuracy.

Technologies: Python, CNN, TensorFlow/Keras, OpenCV, Image Processing.

Rubik's Cube Simulation (OpenGL). **Jun 2024**

- Developed a 3D Rubik's Cube using OpenGL with rotation and rendering logic.
- Implemented cube mechanics and transformations in C.

Technologies: C, OpenGL, Computer Graphics.

School Fee Management System **Dec 2023**

- Created a system to manage student details, fee payments, dues, and reports.
- Designed an efficient database for secure and structured record management.

Technologies: SQL, DBMS, HTML/CSS, Python

CORE COMPETENCIES

- Frontend Development (HTML, CSS)
- Debugging, Testing & Code Optimization
- Database Design, Normalization & SQL Querying
- Version Control & Collaboration (Git, GitHub)
- Data Visualization & Reporting (Power BI, Matplotlib)
- Backend Development & API Handling (Python, Java)

SKILLS

Programming: - Python, Java, HTML and CSS
Database: - MySQL
Soft Skill: - Strong mindset | Analytical | Collaborator | Leader | Adaptable
Languages Known: English, Kannada and Hindi

CERTIFICATIONS AND TRAINING

AUGMENTED REALITY AND VIRTUAL REALITY (ARK)

- Training in AR and VR technologies. (Unity3D)

CYBER SECURITY (3-DAY WORKSHOP)

- Comprehensive workshop covering key concepts in cybersecurity.

DATA ANALYTICS (15 DAYS WORKSHOP)

- Hands-on exposure to SQL | Power BI | ETL | MS Fabric.
